James

I appreciate the additional resources as we are 6 months in at sunnyside and just now collecting 100% as of December with 30M in net AR outstanding from a june go live and 4 months in at Yakima and Toppenish and still collecting only 65% of net. Unfortunately issues interrelated and are directly related to the ehr implementation and subsequent collection process. I hope we can come to some resolution while you are on site this week to accelerate the collection process and accelerate the discussion on cash infusion for some short term relief.

Thank you
